# Crosstabs – Colorado Pols Mayoral Survey

March 2011

# Methodology

RBI Strategies & Research conducted a telephone survey of 400 Denver voters who indicated it was likely that they would vote in the May 2011 Municipal Election. Interviews were conducted March 21 – March 22, 2010 by Standage Market Research of Denver, Colorado, a market research firm specializing in telephone survey interviewing.  Respondents were randomly selected from a list of Colorado voters, purchased from Voter Contact Services, who registered after the 2010 General Election or voted in the 2010 General Election and either 1) voted in at least one off-year election dating back to 2003 or 2) registered after 2009 off-year election.

The margin of error for a survey of 400 interviews is ±4.9% at the 95% confidence level.  The margin of error is higher for subsamples within the full sample.  Other sources of error not accounted for by the stated statistical margin of error include, but are not limited to, question wording, question order, and refusal to be interviewed.

Banners included in the following tables all have a margin of error of less than or equal to ±15% with the exception of:

- Labor household (Yes) – Margin of error is ±16.1%

- Race and Ethnicity (Af-Am) – Margin of error is ±17.9%

- FAVORABILITY: Mejia (Unfav) - Margin of error is ±20.9%

- FAVORABILITY: Hancock (Unfav) - Margin of error is ±25.3%

- FAVORABILITY: Linkhart (Unfav) - Margin of error is ±16.8%

- FAVORABILITY: Spahn (Fav) - Margin of error is ±19.6%

- FAVORABILITY: Spahn (Unfav) - Margin of error is ±25.3%

# Banner Definitions

- Off year vote history (0/1 of 4) – All respondents whose vote history dating back to 2003 indicates no prior off-year vote history or voting in one off-year election

- Off year vote history (2/3 of 4) – All respondents whose vote history dating back to 2003 indicates voting in either two or three off-year elections

- Off year vote history (4 of 4) – All respondents whose vote history indicates voting in all off-year elections dating back to 2003

- Council District (N/NW) – All respondents registered to vote in the following city council districts: 1, 3 or 9

- Council District (SW) – All respondents registered to vote in the following city council districts: 2 or 7

- Council District (SE) – All respondents registered to vote in the following city council districts: 4 or 6

- Council District (NE) – All respondents registered to vote in the following city council districts: 8 or 11

- Council District (Central) – All respondents registered to vote in the following city council districts: 5 or 10

- Hard Name ID (None) – All respondents who were unable to provide hard name ID for any of the candidates running for Mayor of Denver.
